

Hi there!

Thank you so much for helping out with the NYSL website. Tom does a terrific job managing the lead but his experience with web design wireframing is a bit, well, limited. I had a few minutes free last night and this morning to put together two design alternatives for the new website. Hope this helps!

-Jules (Topher's Mom :) )

- 1 Please use bannerImage.png as a background image. You may need to resize the photo but please don't crop out Topher! Just kidding he's the one in front so it would be impossible to crop him out lol
- 2 The league name should overlay the photo. You may want to play around with the transparency levels so that it looks nice.
- 3 This image is the nysl\_logo

## ABOUT NYSL

[Home](#)[About NYSL](#)[Contact](#)

### Mission

To support young athletes living in Chicago's northside neighborhoods, who have an interest in learning and playing soccer, with opportunities to learn and practice skills related to the game of soccer, especially those skills related to team cooperation and good sportsmanship.

### Vision

The Northside Youth Soccer League aspires to develop strong, well-rounded, and mindful athletes through the building of character, self-discipline, and leadership.

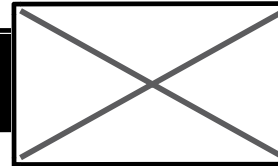

### General Info

The Northside Youth Soccer League was established in 1996 to provide athletes residing in Chicago's northside neighborhood an environment to learn and play soccer. To be a member of NYSL, you must be between the ages of 4-12 and reside in a Chicago northside neighborhood. NYSL is run by a small, full-time staff, and relies on the generous volunteer time of parents and former league members.

## Email

Feel free to email us at: [nysl@chisoccer.org](mailto:nysl@chisoccer.org)

We will reply to your email as soon as we can.

## Phone

You may call us directly at (773) 555-8984.

As we are staffed mostly by volunteers, there is a good chance your call will not be picked up immediately. We recommend email as the preferred way of contacting us, but you may also leave us a brief voicemail with your name, number, and reason for calling and we will return your call.

This should launch the user's default email client when clicked.

In this version, let's try it with page buttons that overlay the banner image. The button of the page the user is on should display as selected state.

2

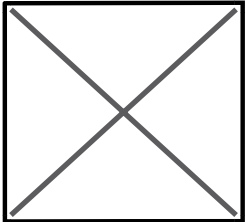

The other major difference in this version is that I've moved the logo here.
